## RESIDENCE PERMIT APPLICATION FOR SCIENTIFIC RESEARCH

This residence permit application form is for you if you are applying for a residence permit in order to conduct scientific research or participate in a research project, or to undertake post-graduate studies involving research in the same field. If you intend to study for a Licentiate's degree or prepare a doctoral dissertation and you are paying for your studies yourself, you must apply for a student residence permit (form: OLE\_OPI).

Carefully fill in and sign the application. Incomplete information will delay the processing of the application and may lead to its rejection.

An application may be submitted to a Finnish diplomatic mission abroad or to the local police in Finland. A processing fee will be collected when the application is submitted, according to the Decree on charges. Read the instructions for filling in the form at [www.migri.fi](http://www.migri.fi) → English → Application forms.

Clarifications that you need to append to your application are listed in Section E of this form.

I am applying for ☐ my first residence permit ☐ an extended permit  
and hereby submit the following information for the processing of my application:

## APPENDIX TO RESIDENCE PERMIT APPLICATION; PASSPORT PHOTO

A photo of the applicant must be appended to the residence permit application. This photo must comply with the passport photo guidelines issued by the police and must not be more than six (6) months old.

Affix the photo in the box on the right using glue.

**Do not staple the photo.**

The photo must be 47mm high and 36mm wide. The distance between the top of the head without hair and the bottom of the chin must be 32-36mm in the photo.

The head must be straight and in the middle of the photo. Both the head and the shoulders must be turned straight towards the camera. Portrait-style photos where the subject looks over one shoulder are not acceptable. The photo must be taken straight from the front, not from higher up, lower down or from the side. The subject must look straight at the camera.

The photo must show the subject's full face. The expression must be neutral. The mouth must be closed. The eyes must be open and clearly visible. The photo must show the subject's full face, e.g. garments or hair must not cover any part of the face. Particularly eyes must be clearly visible. Glasses can always be removed for the photo. Tinted glasses and eye patches are allowed only for medical reasons.

The photo must be taken against a plain background. The colour of the background must be neutral and light. There must be no shadows in the background. The face must be clearly distinguishable against the background. Other people or objects must not be visible in the photo. A small child may be supported, but no part of the supporter is to be visible. For children younger than 11 years old, a photo with a smaller head size is acceptable, if blurring or other distortion cannot otherwise be avoided. In such photos, the height of the head must still be at least 25mm.

The lighting must be uniform: the face and the background must be free of shadows and hot spots. The red-eye effect must be prevented. The colour of the lighting must be natural, not bluish or reddish, for example. The photo must not be over- or under-exposed.

The photo must be printed on high-quality photograph paper. The photo must be sharp and in focus; it must not be blurred or grainy. The photo must be clean: no scratches, stains or creases are allowed. No manipulation or retouch of the photo is allowed. Optical and other distortions of the dimensions of the face that impede visual or automatic identification are not allowed.

For more specific instructions, see the police website [www.poliisi.fi](http://www.poliisi.fi) → English → Licences → Passport → Passport photo guidelines).
